

**FOURTH AMENDMENT TO
ELSEVIER SUBSCRIPTION AGREEMENT**

WHEREAS, the parties hereto have previously entered into an agreement dated the 17 March 2016, as last amended on 27 March 2017 (the “Agreement”) and wish to amend the Agreement as set forth in this amendment (“Amendment”).

NOW, THEREFORE, in consideration of the mutual promises and covenants set forth below, and for such other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree to amend the Agreement as of 30 November 2018, as set forth below and in Schedules 1 and 2.

Section 5 Term

The term of the Agreement as mentioned in Section 5 of the Agreement is hereby extended and shall continue until 30th June 2019. Consortium acknowledges and agrees that no post termination access rights entitlements shall exist or be accumulated during this extended term.

IN WITNESS WHEREOF, the parties have executed this Amendment by their respective, duly authorized representatives as of 30 November 2018.

Schedule 1.1 Subscribed Titles

The Pilot Gold Open Access terms on Schedule 1.1 are replaced and superseded by the below conditions:

Pilot Gold Open Access

The Authorized Users of the Institutions shall have the right during the period 1st January 2019 to June 30th to submit a total of **1,600** journal articles under the Pilot Gold Open Access for publication to Elsevier and, if accepted after peer review, at no additional cost. If selecting open access under the Pilot Gold Open Access the journal article shall be published under a CC-BY or CC-BYNC-ND license as determined by the submitting Authorized User.

The abovementioned amount of 1600 journal articles eligible for the Pilot Gold Open Access under the Agreement consists of:

- 1,300 unused journal articles
- 300 additional journal articles

The eligibility of the above articles for the Pilot Gold Open Access will expire on June 30th 2019, unless the Agreement is renewed in which case any unused amounts shall survive and remain active during the renewal term.

Submitting Authorized Users under the Pilot Gold Open Access shall not be required to transfer any copyright in their work to Elsevier, instead submitting Authorized Users grant exclusive rights to Elsevier in the journal article publishing process. The submitting Authorized Users shall have the same rights to reuse the published journal article as those allowed to third party users of the journal article under the selected CC license. The number of journals published by Elsevier which are available for the Pilot Gold Open Access are selected by Elsevier in agreement with the Subscriber and are based upon the domain and NL publishing behavior required to meet the respective quota as described above in Gold Open Access journal articles and attached in Schedule 1.2 of this Agreement. Elsevier shall on a monthly basis provide Subscriber a report of the total number of Gold Open Access journal articles published under this Agreement. Elsevier will make available on a semi-annual basis a complete report of all articles (open access and otherwise) published by Authorized Users. Elsevier will not levy article processing charges directly on Authorized Users of the Institutions in relation to the selected Journals under the Pilot Gold Open Access described herein. The aforementioned does not prejudice Elsevier's right to charge article processing charges from submitting Authorized Users to the extent these fall outside the scope of selected journals under the Pilot Gold Open Access. The Institutions shall ensure that Authorized Users who wish to submit article manuscripts shall identify themselves as being eligible in the course of Elsevier's publishing work-flow.

The parties may adjust the above identifying process where appropriate and amend this Agreement accordingly by means of an amendment in writing.

All Institutions will have access to the Elsevier Open Access Platform (“EOA Platform”), which allows such Institutions to validate the eligibility of the author and accept or reject payment of the APC. Validation of eligibility will be the responsibility of the Institution and invoices will be sent to authors at their Institution’s address.

The EOA Platform will present the institutional representative with all information needed to validate the article publishing charges, such as the details of the corresponding author, a DOI, article title, journal title, research funding and the APC. When the Institution approves paying the APC, Elsevier will invoice the Institute.

Schedule 1.2

Additional Gold Open Access Titles

An additional list of Gold Open Access Titles eligible for the Gold Open Access Pilot is included in this Schedule, consisting of Elsevier's fully gold journals, agreed society owned journal titles and Mirror Journals. "Mirror Journals" shall mean electronic journals that share the same scope, editorial board and publishing processes as a subscribed to, or hybrid journal but operates under an open access business model. Elsevier reserves the right to add additional journals to the Subscribed Products on an ongoing basis.
